

Hi Ms. Miller,

Re: Email Correspondences Associated with the proposed Cidery Located at s. 13
s. 13 620 Laura Road, Bowen Island

This s. 13 receipt of the email correspondence you sent on May 7, 2021, regarding the approval status of the aforementioned proposed food premises (hereafter mentioned as “the premises”).

We understand that the concerns you raised in your previous emails about how the proposed operation at your neighbouring premises may pose threats to the safety of drinking water at your property. Vancouver Coastal Health (VCH) has comprehensive application review processes to ensure that the premises achieves the required health standards in food safety, drinking water safety, and proper wastewater disposal before it is permitted to operate. These requirements were explained to you in EHO R. Adamson’s email on March 30, 2021. Further to that, you raised concerns about the potential increased usage of potable water in your neighbourhood s. 13
s. 13 to the Water Management Branch in BC Ministry for Forests, Lands, Natural Resource Operations and Rural Development. Your follow-up email sent on May 7, 2021, raised many specific questions about the premises s. 13 update at this time, as our office s. 13 working with the applicant to ensure that the premises complies with our jurisdictional legislation before it can s. 13 operate.

If you have any questions, you may contact me at 604-983-6813.

Sincerely,

Gary Tam, MBA, BSc, BTech, CPHI(C)

Hi Ms. Miller,

Re: Email Correspondences Associated with the Cidery Located at 1355 Westside Road, Bowen Island

This is a receipt of the email correspondence you sent on May 7, 2021, regarding the approval status of the aforementioned proposed food premises (hereafter mentioned as “the premises”).

We understand that the concerns you raised in your previous emails about how the proposed operation at your neighbouring premises may pose threats to the safety of drinking water at your property. Vancouver Coastal Health (VCH) has comprehensive application review processes to ensure that the premises achieves the required health standards in food safety, drinking water safety, and proper wastewater disposal before it is permitted to operate. These requirements were explained to you in EHOR. Adamson’s email on March 30, 2021. Further to that, you raised concerns about the potential increased usage of potable water in your neighbourhood to the Water Management Branch in BC Ministry for Forests, Lands, Natural Resource Operations and Rural Development. Your follow-up email sent on May 7, 2021, raised many specific questions about the premises. However, there is no update at this time, as our office has been working with the applicant to ensure that the premises complies with our jurisdictional legislation before it can operate.

If you have any questions, you may contact me at 604-983-6813.

Sincerely,

Gary Tam, MBA, BSc, BTech, CPHI(C)
